- Semi-finalists will be notified of their selection via email and further instructions will be provided at that time.

Selection process

Phase 1: Review of Dissertation Summaries

The first phase uses the Dissertation Summaries as a basis of selection. The ODC Chair will send the Dissertation Summaries to a panel of judges who will evaluate them using the rubric attached to these guidelines (see p. 4). Each judge will be asked to submit a Dissertation Summary ranking score. Based on the judges' rankings, the ODC Chair will determine the top seven (7) to ten (10) Dissertation Summaries and these become the semifinalists.

For the first round of judging, the applicant's dissertation is rated SOLELY upon the Dissertation Summary submitted. These summaries must accurately, concisely, and precisely reflect the research of the full dissertation. ***Dissertation Summaries that do not adhere to page limits specified in these guidelines will not be considered for the competition.***

Phase 2: Selection process - Review of Dissertation

In the second phase, the ODC chair contacts the semifinalists and requests a copy of the complete dissertation. The panel of judges will evaluate the complete dissertations using the rubric attached to these guidelines as a basis for the selection's second phase. The panel of judges will convene to discuss and rank the complete dissertations and will determine the top three (3) dissertations, and honorable mentions, if applicable. All decisions by the panel of judges are final.
